

*Department of
Computer Science & Engineering*

Vision:

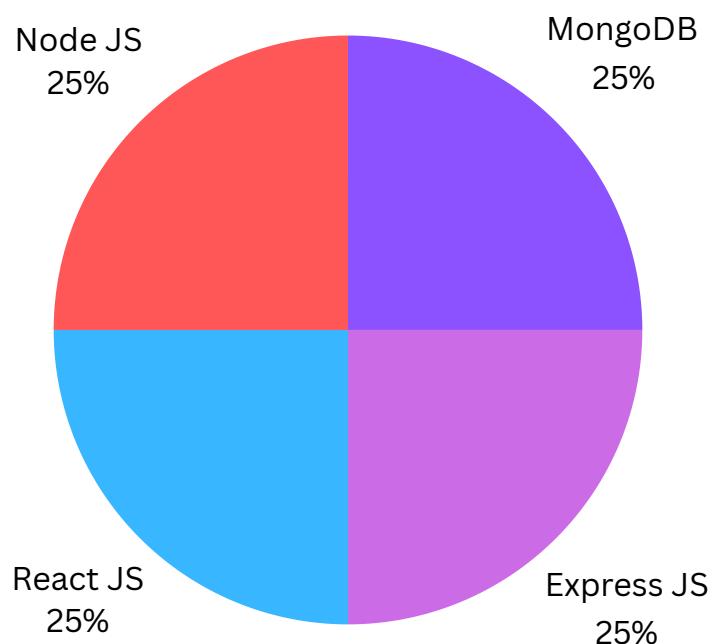

"To be Successful Computer Science engineer , building competence through student centric learning for self-employment, research, industry and society needs"

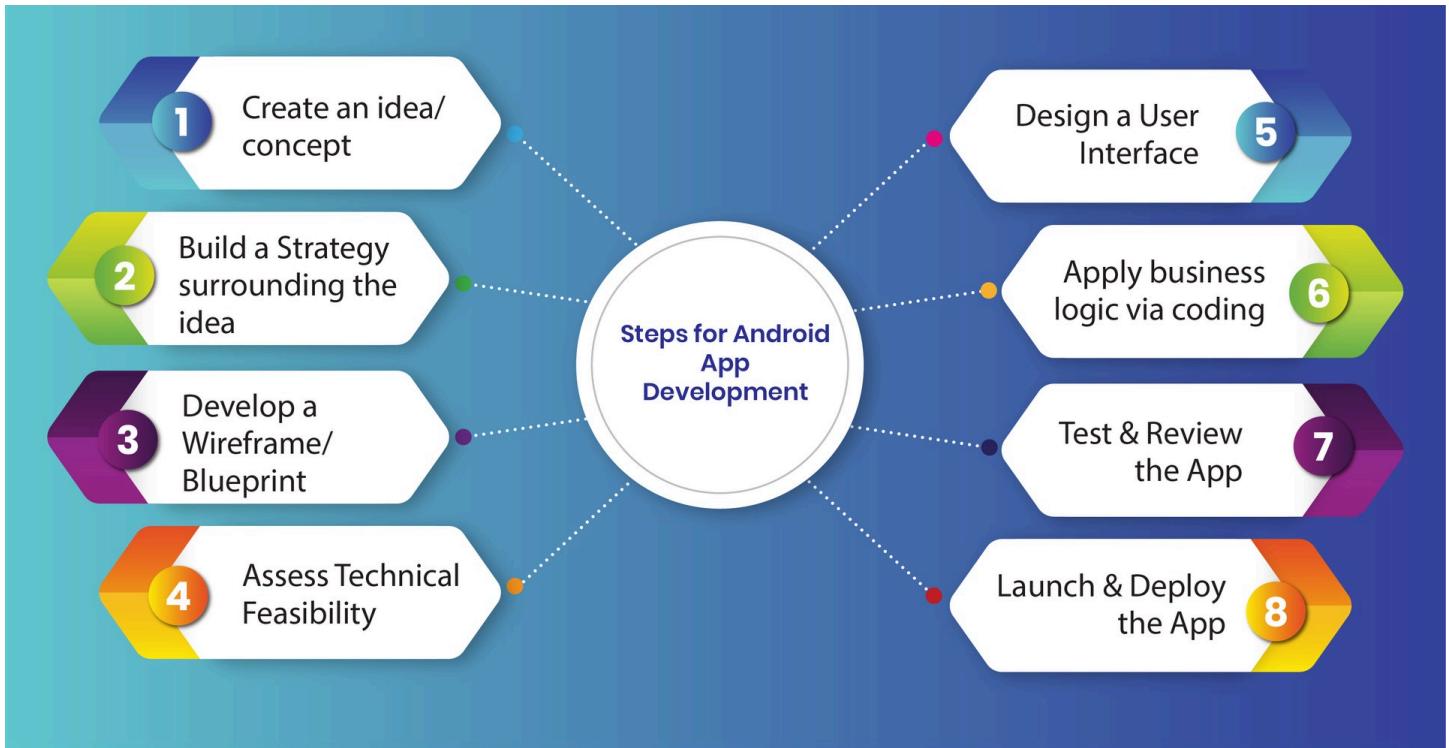

Objective of the Internship:

- "To Develop and learn Web development and Android app Development were the students with strong fundamentals In MERN Stack, analytical, programming and problem Solving skills.**
- | To provide exposure to students to latest tools & technologies in the area of computer Science and engineering.**
- | To create a platform for Research, exhibiting leadership qualities, Time management" ..**

Learning Web Development and Android app Development

Learning Practical

Sorry, we couldn't load this chart.

Learning HTML and Executing HTML program using Doc tag and lorem

Practice of HTML and CSS were designing the web page with CSS

Analyzing the problem from program and removing the errors

Making website responsive using JAVA Script.

Web Development programs (HTML,CSS and Java Script) programs by the Students

Lala Lajpat Rai
Lajpat Rai was born on 28 January 1865 into an Agrawal Jain[2][3] family as the eldest son of six children of Mumhi Radha Krishna, an Urdu and Persian government school teacher and Gulab Devi Aggarwal at Dhadiala in the Faridkot district of the Punjab Province of British India (now in Moga district, Punjab, India).[4] He spent much of his youth in Jagraon. His house still stands in Jagraon and houses a library and museum.[5] He also built the first educational institute R.K. High school in Jagraon.

BORN
Lajpat Rai had his initial education in Government Higher Secondary School, Rawali, Punjab province, where his father was posted as an Urdu teacher. In 1880, he joined Government College at Lahore to study law, where he came in contact with patriots and future freedom fighters, such as Lala Hans Raj and Pandit Guru Dutt. While studying at Lahore he was influenced by the Hindu reformist movement of Swami Dayanand Saraswati, became a member of the existing Arya Samaj Lahore in 1877 and founder-editor of Lahore-based Arya Gazette.

CAREER
In 1884, his father was transferred to Rohtak, and Rai came along after the completion of his studies at Lahore. In 1886, he moved to Hissar where his father was transferred and started to practice law and became a leading member of the Bar Council of Hissar. In the same year, he helped Madan Singh Malhotra, a leader of the Arya Samaj, to found the Arya Samaj of Hissar. In 1888, he also joined the Arya Samaj of Lahore, which was the reformist Arya Samaj movement with several other local leaders. These included Babu Churnamani (lawyer), the three Tayal brothers (Chandu Lal Tayal, Han Lal Tayal and Balmandir Tayal), Dr. Ramji Lal Hooda, Dr. Dham Ram, Arya Samaj Pandit Murari Lal,[6] Seth Chhajju Ram Jat (founder of Jat School, Hissar) and Dev Raj Sandhu. In 1888 and again in 1889, he had the honor of being one of the four delegates from Hissar to attend the annual session of the Congress at Allahabad, along with Babu Churnamani, Lala Hans Raj and Seth Gurdip Singh. In 1892, he moved to Lahore to practise before the Lahore High Court. He accepted the political goals of India to gain independence. He also practised journalism and was a regular contributor to the newspaper "The Tribune". The Tribune was also associated with the management of Punjab National Bank and Lakshmi Insurance Company in their early stages in 1894. In 1914, he quit law practise to dedicate himself to the Indian independence movement and travelled to Britain, and then to the United States in 1917. In October 1917, he founded the Indian Home Rule League of America in New York. He stayed in the United States from 1917 to 1920. His early freedom struggle was impacted by Arya Samaj and communal representation.

Politics
After joining the Indian National Congress and taking part in political agitation in Punjab, Lala Lajpat Rai Wadwal was deported to Mandalay, but there was insufficient evidence to hold him for subversion. Lajpat Rai's supporters attempted to secure his election to the presidency of the party session at Surat in December 1907, but he did not succeed.[10] Graduate of Fyzabad National College, which he founded inside the Bradlaugh Hall at Lahore as an alternative to British-style institutions, included Bhagat Singh[11] and Chandrasekhar Azad[12]. In 1919, he founded the Open School of Lahore, a branch of the Indian Society of Friends, a non-profit welfare organization, in Lahore, which shifted its base to Delhi after partition, and has branches in many parts of India.[13] According to him, Hindu society needs to fight its own battle with caste system, position of women and untouchability.[14] Vedas were an important part of Hindu religion and approved everyone should be allowed to read them and recite the mantras. He believed that everyone should be allowed to read and learn from the Vedas.

Monuments and institutes founded in memory of Lala Lajpat Rai
Erected in the early 20th century, a statue of Lajpat Rai at Lahore, was later moved central square in Shimla after the partition of India. [27] In 1959, the Lala Lajpat Rai trust was formed on the eve of his Centenary Birth Celebration by a group of Punjabis philanthropists (including R.P Gupta and B.M Grover) who have settled and prospered in the Indian State of Maharashtra, which runs the Lala Lajpat Rai Colleges of Commerce and Economics in Mumbai. Lala Lajpat Rai Memorial Medical College, Nagpur is named after him.[28] In

Students seminar

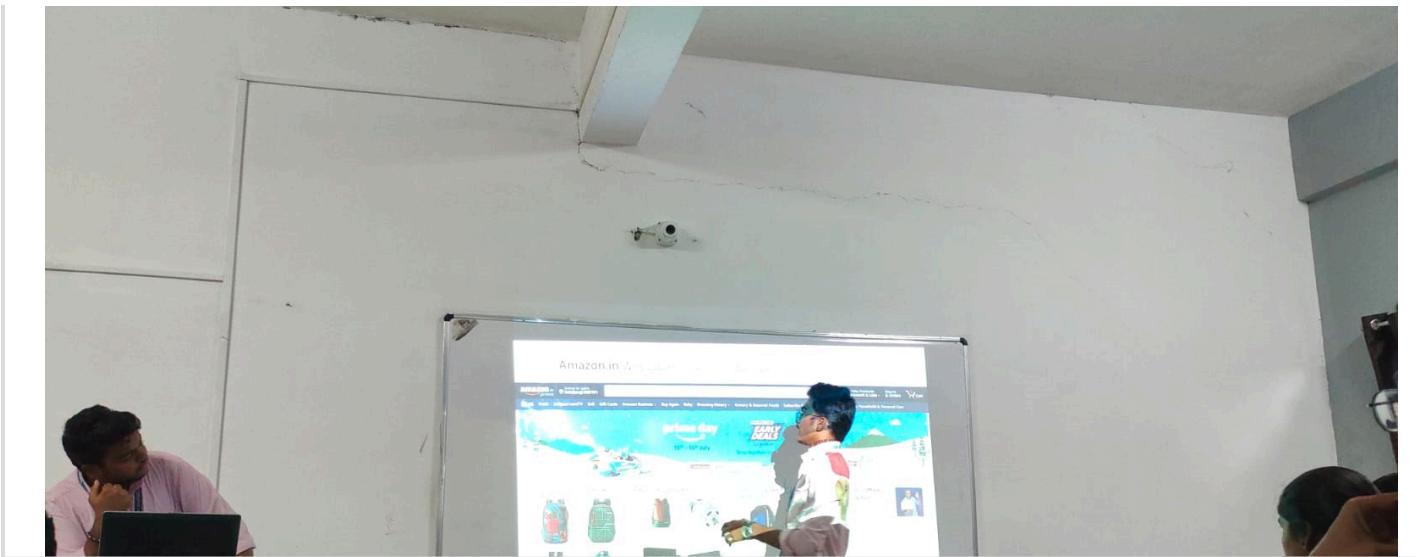

- ***Students are giving the presentation on frontend and backend of website.***

- ***Students explaining about HTML,CSS and JAVA used for web site.***

- ***Explaining brief about CSS (Cascading Style Sheets) making easy to understand and design using CSS***

Outcomes of the Internship

- Students are able to give professional seminar.
- Students developed technical skills to clear mock interviews.
- Students can develop Websites and Android application by their own.
- Students done many mini project on MERN Stack.
- It was an Interactive internship between Students and Trainers.

- *HOD of Computer Science Engineering Department :*

Prof. Chandrakala V. patil
